

Circular No.	IIBX-TECH-2026-067	Circular Date	05-Aug-2026
Category	Technology	Segment	Spot
Subject	New Trading & Clearing Platform – Mock Trading Sessions (07 August 2026 to 21 August 2026)		
Attachments			

In accordance with the provisions of the Rules, Byelaws and Business Rules of the Exchange, Members are hereby informed that the Exchange is implementing a new Bullion Spot Trading and Clearing Platform.

As part of the implementation process, the Exchange will conduct **Mock Trading Sessions** from **07 August 2026 to 21 August 2026** (excluding Exchange holidays) to enable members to familiarize themselves with the new trading and clearing system before its production rollout.

The mock trading sessions will be conducted over the Internet as per the schedule below:

Session	Dates	Timings
Mock Trading Session	07 August 2026 to 21 August 2026 (excluding Exchange holidays)	09:00 AM to 06:30 PM

The new system will adopt a revised nomenclature for **Member Codes** and **Client Codes**. The **Client Codes (UCCs)** have been shortened from the existing 19-character format to 9 characters. The first three characters of the new UCC will denote the client type, thereby enabling clear and consistent identification of different client categories.

IIBX has prepared the mapping of the existing Member Codes and Client Codes to the corresponding new Member Codes and Client Codes assigned under the new system. It is further informed that the Member Codes and Client Codes will remain uniform across the Spot and Futures trading systems of IIBX, thereby facilitating ease of identification and seamless trading across different trading segments.

IIBX will share the newly assigned Member Codes and Client Codes with the respective Members on their registered email IDs prior to the commencement of the mock trading sessions. The communication will also include the login credentials for accessing the new applications.

The login credentials provided will be required for participation in the mock trading sessions and will subsequently be also used to access the production environment upon implementation of the new system.

Members will be able to access the following applications using their newly issued credentials:

1. iMint (*IIBX Market Integrated Trading Terminal*) Prime Trading Application (Desktop Application)
Trading application for participation in the Bullion Spot Market.

Download Link: <https://derivative.iibx.co.in/Downloads>

2. IIBX Exchange Member Portal

For:

- User and Client (UCC) management
- AD Letter requests
- Exchange reports and administrative functions

Portal: <https://imgexspot.iibx.co.in>

3. IIBX Clearing Member Portal

For:

- Early Pay-in of Funds / Early Pay-in of Securities related activities
- Clearing administration
- Clearing reports

Portal: <https://imgccspot.iibx.co.in>

4. IIBX Bank Portal

For:

- Authorization of member fund transactions
- Funds settlement.

Portal: <https://ibgspot.iibx.co.in>

All Trading Members are encouraged to actively participate in the mock sessions to familiarize themselves with the new application interface and operational workflows.

The list of available functionalities provided in **Annexure 1** for Member Exchange Admin Portal, **Annexure 2** for Member Clearing Admin Portal, **Annexure 3** for iMint Prime Trading Application and **Annexure 4** for Clearing Bank Portal.

Initial Login

- During the first login to the mock environment, users shall log in using the password provided by the exchange on member's registered email id.
- Upon successful login, the system will mandatorily prompt the user to change the password before granting access.
- Newly created users or users whose passwords have been reset will receive the new password on their registered email address.

Note: Members are advised to clear their browser cache before accessing the web portals. While creating browser bookmarks, only the base portal URL should be saved. Additional URL parameters, if any, should not be included.

Members should ensure that adequate arrangements are made to restore their trading systems to the production configuration after completion of each mock session to maintain the integrity of their production environment.

Please note that all transactions carried out during the mock trading sessions are **for testing purposes only** and **shall not result in any financial, clearing, settlement, pay-in or pay-out obligations**.

Members are requested to take note of the above and ensure active participation in the mock trading sessions.

Neeraj Gupta
Chief Technology Officer
