Category	**Technology**	**Segment**	**Spot**

Subject	**Go-Live of New Bullion Spot Trading and Clearing Platform**
Attachments	

In accordance with the provisions of the Rules, Regulations and Byelaws of the Exchange, and in continuation of Exchange Circular No. **IIBX-TECH-2026-067 dated August 05, 2026**, Members are hereby informed that the Exchange shall go live with the **new Bullion Spot Trading and Clearing Platform with effect from August 27, 2026**.

The implementation of the new platform is part of the Exchange's ongoing technology transformation and is aimed at providing an enhanced, efficient and streamlined technology environment for trading, clearing and settlement operations.

The Client Codes (UCCs) have been rationalized from the existing 19-character format to a 9-character format. The first three characters of the new UCC shall denote the client type, thereby enabling clear, consistent and systematic identification of different categories of clients.

The Exchange has shared the mapping of the existing Member Codes and Client Codes with the corresponding new Member Codes and Client Codes assigned under the new system.

It is further informed that the Member Codes and Client Codes shall remain uniform across the Spot and Futures trading systems of IIBX, thereby facilitating ease of identification, operational efficiency and seamless participation across different trading segments.

The Exchange has issued the following circulars in relation to the implementation of the new Bullion Spot Trading and Clearing Platform:

1. Circular No. IIBX-TECH-2026-067 dated August 05, 2026 – New Trading & Clearing Platform – Mock Trading Sessions (August 07, 2026 to August 21, 2026). The circular also provides details of the important functionalities available across various applications.

2. Circular No. IIBX-TECH-2026-070 dated August 11, 2026 – API Document for New Trading & Clearing Platform.

3. Circular No. IIBX-TECH-2026-071 dated August 12, 2026 – File Formats for New Trading & Clearing Platform.

4. Circular No. IIBX-TRD-2026-072 dated August 13, 2026 – Request for Additional Dealer and Client Terminal ID.

Members are advised to refer to the above circulars and ensure that the necessary technical, operational and user-level readiness is completed prior to the Go-Live date.

The new Trading Application, **iMINT Prime**, is available on the IIBX website. The Exchange shall provide the requisite login credentials to Members for accessing the new applications.

As part of the initial user provisioning, the Exchange has created one Dealer ID per Member by default. Members requiring additional Dealer IDs and/or Client Terminal IDs may submit their requests in accordance with the procedure specified in the relevant Exchange circular.

As part of the implementation of the new Bullion Spot Trading and Clearing Platform, a new Member Admin Web Portal shall also be made live. The portal will provide Members with access to the relevant administrative and user-management functionalities under the new system.

Members will be able to access the following applications using their newly issued credentials:

1. iMint (***I****IBX* ***M****arket* ***In****tegrated* ***T****rading Terminal)* **Prime Trading Application** (Desktop Application)
Trading application for participation in the Bullion Spot Market.

2. IIBX Exchange Member Portal
For:

- User and Client (UCC) management
- AD Letter requests
- Exchange reports and administrative functions

Portal: https://imgexspot.iibx.co.in

3. IIBX Clearing Member Portal
For:

- Early Pay-in of Funds / Early Pay-in of Securities related activities
- Clearing administration
- Clearing reports

Portal: https://imgccspot.iibx.co.in

4. IIBX Bank Portal – (Accessible only to the designated Clearing Banks)
For:

- Authorization of member fund transactions
- Funds settlement.

Portal: https://ibgspot.iibx.co.in

Initial Login

- During the first login to the production environment, users shall log in using the password provided by the exchange on member's registered email id.
- Upon successful login, the system will mandatorily prompt the user to change the password before granting access.
- Newly created users or users whose passwords have been reset will receive the new password on their registered email address.

Note: Members are advised to clear their browser cache before accessing the web portals. While creating browser bookmarks, only the base portal URL should be saved. Additional URL parameters, if any, should not be included.

Members are requested to take note of the above and ensure necessary readiness and compliance for the successful transition to the new IIBX Bullion Spot Trading and Clearing Platform.
